

# MESSAGE FROM THE FUTURE

Findings from Fukushima Experience

SIMPLE NAIIC

1<sup>ST</sup> Step From Fukushima

わたしたちは福島での国際会議に向けてコラボしています。

Can't do anything about it.  
~~Let the experts deal with it.~~  
~~Not my problem.~~

# Our Actions

**Report Reading**

**Video**

**Evacuation Center Operation Simulation Game**

**DR.WATANABE**  
Japanese Red Cross

**MS.TAKEDA**  
Japanese Red Cross

**MR.YOSHIKAWA**  
-Appreciate FUKUSHIMA  
Workers  
-Former worker at  
Fukushima Daii-ni on  
March 11, 2011

**MR. KOBAYASHI**  
Namie Town (adjacent  
town to F1) Office  
Worker

**DR. KAINUMA**  
FUKUSHIMAGAKU PROJECT at  
Fukushima University

# Our findings from the “1st Step from Fukushima”

## **1. From the Kurokawa report**

- ✓ **Mindset of “an accident would not occur” is the fundamental cause of Fukushima Nuclear Disaster**

**A “Manmade” Disaster**

**Responsibility for the Future**

# Our findings from the “1st Step from Fukushima”

1. From the Kurokawa report
  - ✓ Mindset of “an accident would not occur” is the fundamental cause of Fukushima Nuclear Disaster
2. **From the workshop held in August, 2014**
  - ✓ **Examples of confusion led by such mindset.**  
**No preparation was done based on an assumption that accident occurs**

DR.WATANABE  
Japanese Red Cross

MR.YOSHIKAWA  
Appreciate FUKUSHIMA Workers

MR.KOBAYASHI  
Namie Town

Adults assumed  
“Accident would not occur”

# Our findings from the “1st Step from Fukushima”

## 1. From the Kurokawa report

- ✓ Mindset of “an accident would not occur” is the fundamental cause of Fukushima Nuclear Disaster

## 2. From the workshop held in August, 2014

- ✓ Examples of confusion led by such mindset.  
No preparation was done based on an assumption that accident occurs
- ✓ **Indirectly caused death outnumbered death caused by direct injuries from disaster**

Indirectly caused  
death

>

Direct caused  
death

### **Cause 1**

- ◆ Large scale evacuation
- ◆ prolonged life as evacuee

### **Cause 2**

- ◆ Vast area and more people
- ◆ Difficulty in making future plans
- ◆ Anxiety and fear on health

Stress

# Our findings from the “1st Step from Fukushima”

## 1. From the Kurokawa report

- ✓ Mindset of “an accident would not occur” is the fundamental cause of Fukushima Nuclear Disaster

## 2. From the workshop held in August, 2014

- ✓ Examples of confusion led by such mindset.  
No preparation was done based on an assumption that accident occurs
- ✓ Indirectly caused death outnumbered death caused by direct injuries from disaster
- ✓ **Situation in Fukushima where people feel it difficult to talk about 3.11**

FUKUSHIMA ST

I'm involved.

I feel pity  
for them.

I don't care.  
It's not my  
business.

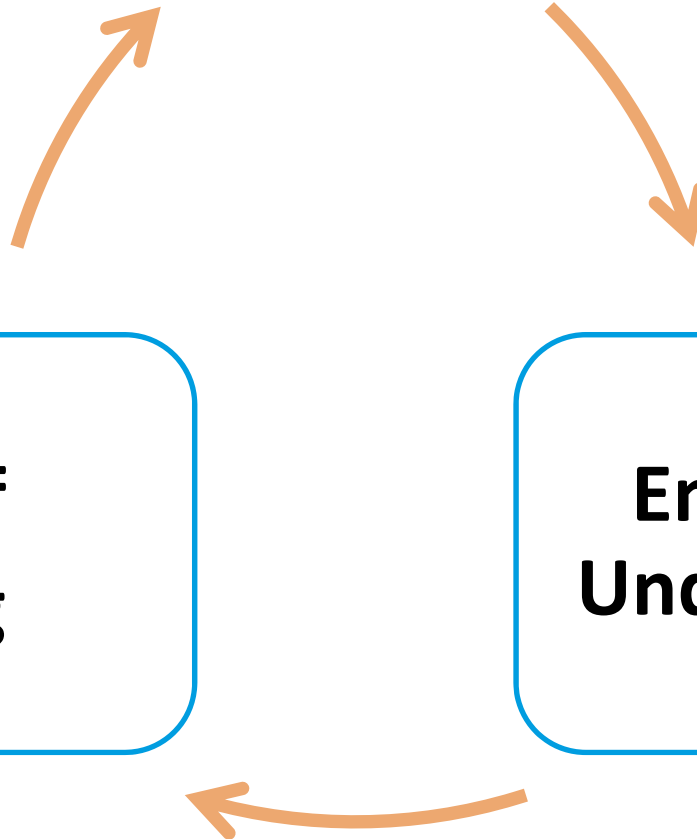

I don't know  
so I won't  
think about it.

Etc.etc..

**Listen=Learning**

**Action=  
Sharing**

**Empathize=  
Understanding**

# Our findings from the “1st Step from Fukushima”

## 1. From the Kurokawa report

- ✓ Mindset of “an accident would not occur” is the fundamental cause of Fukushima Nuclear Disaster

## 2. From the workshop held in August, 2014

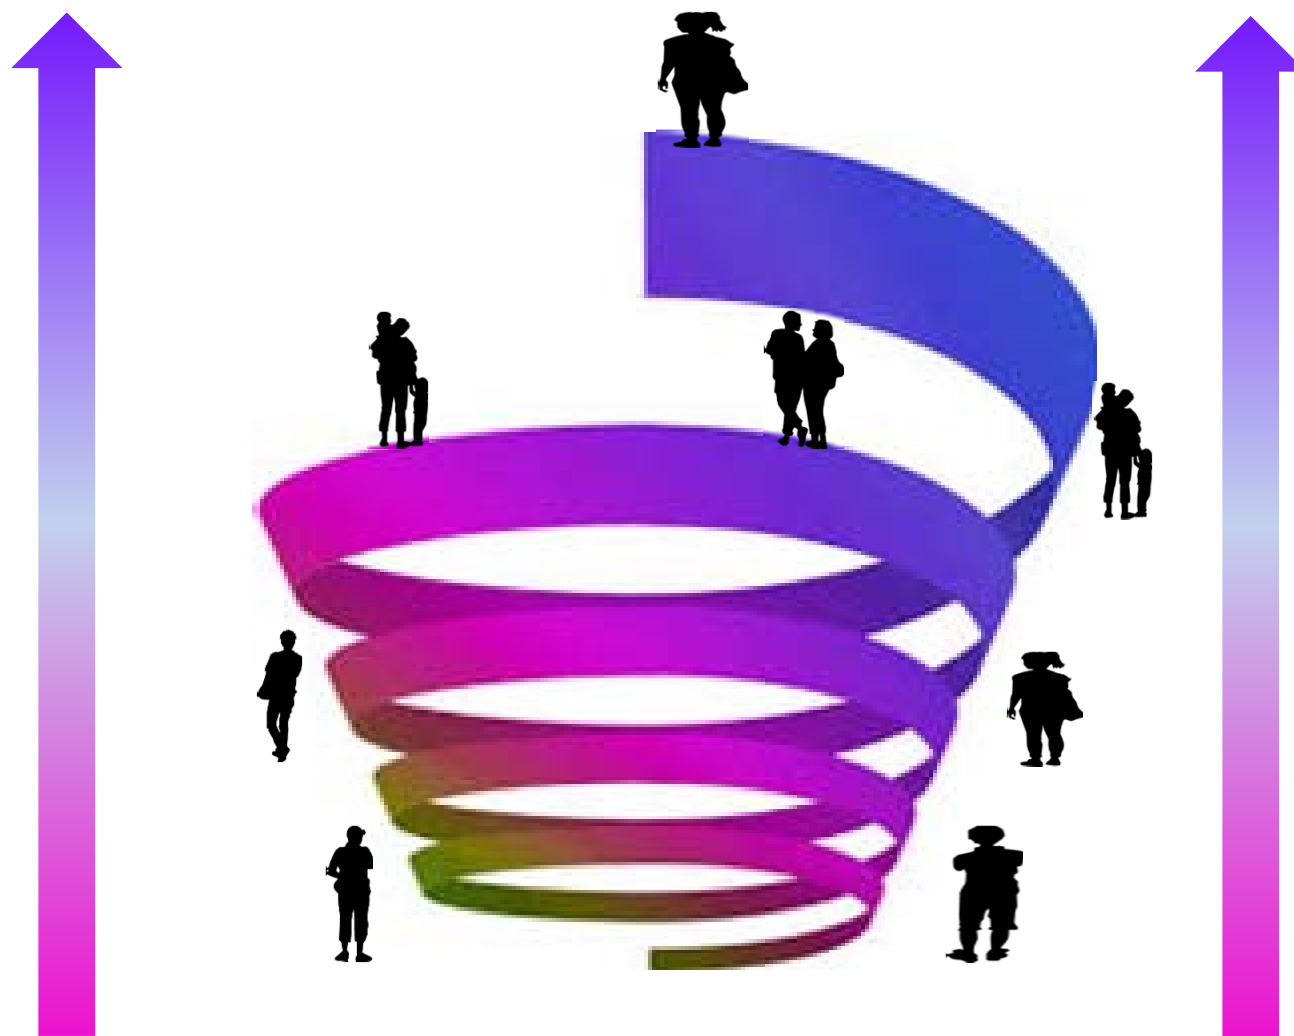

- ✓ Examples of confusion led by such mindset.  
No preparation was done based on an assumption that accident occurs
- ✓ Indirectly caused death outnumbered death caused by direct injuries from disaster
- ✓ Awkward situation in Fukushima where people feel it difficult to talk about Fukushima Nuclear Disaster
- ✓ **High School graduates working for Fukushima Dai-ichi**

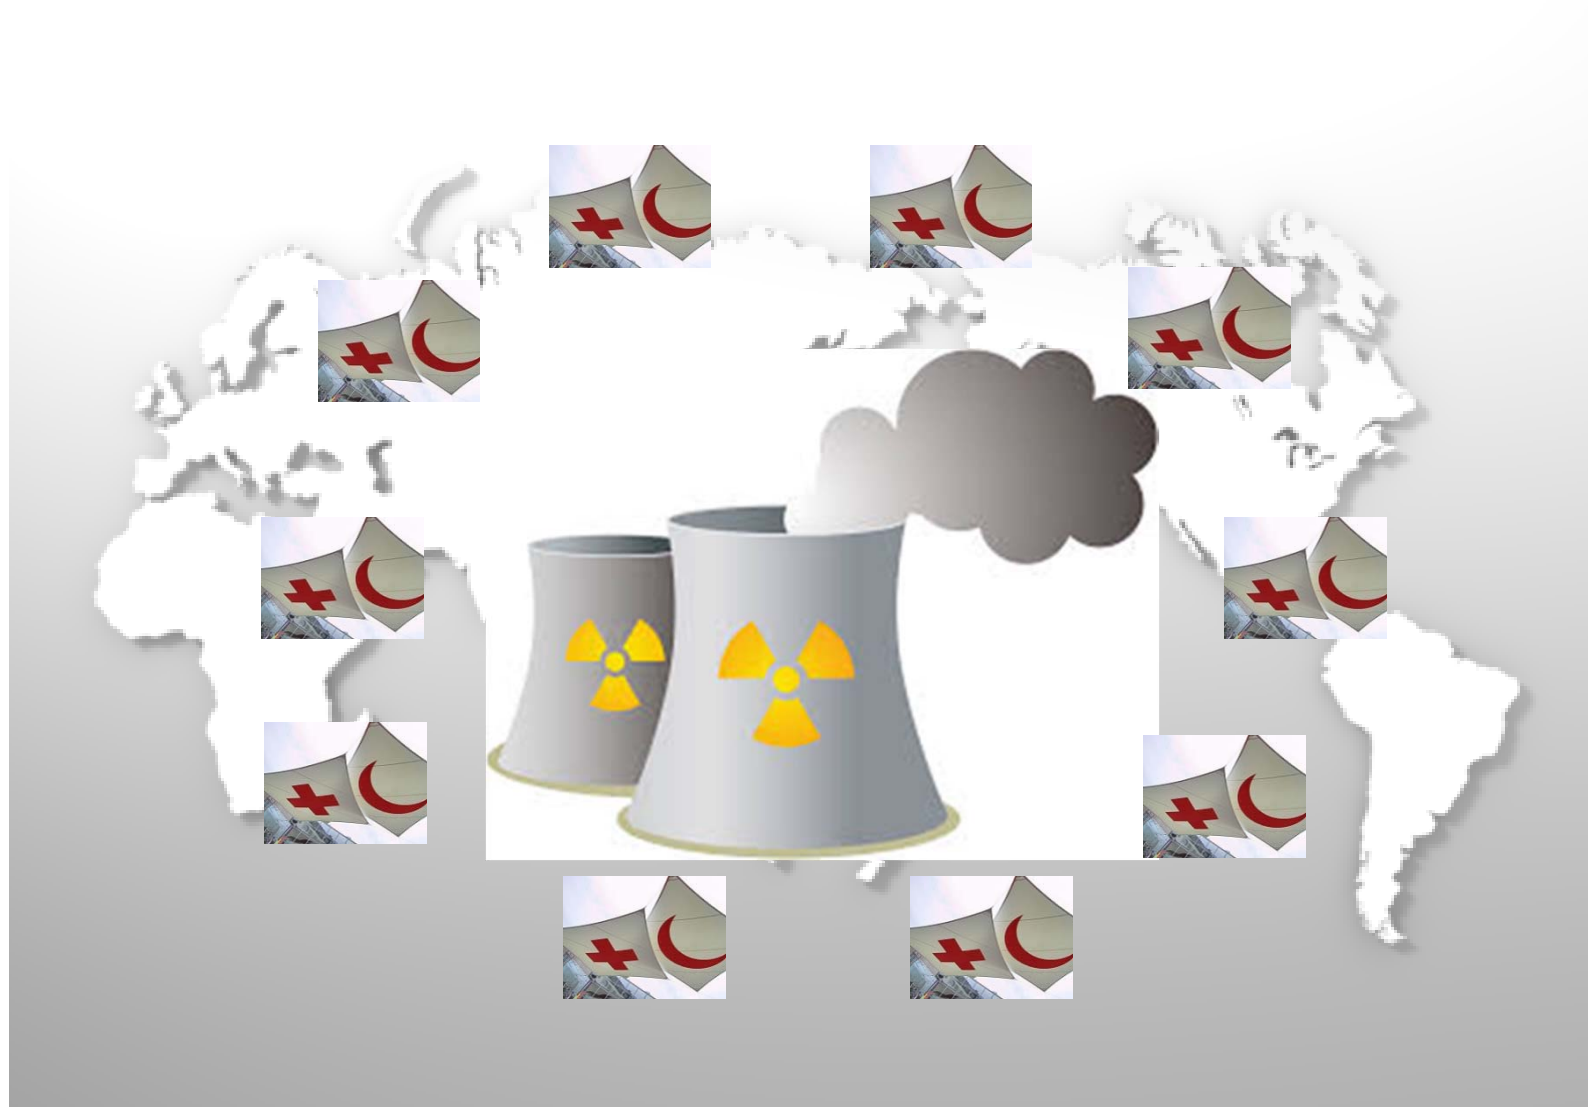

Face the  
Challenges  
NOW

**What will I do ?**

# SPECIAL THANKS TO
